Houston Architectural Stone proudly presents its' line of architectural stone. Only the highest quality of workmanship goes into these products.

Houston Architectural Stone is a Cast Stone Manufacturer and Mason that provides Custom, Architectural and Dimensional Cut Stone to Houston, Galveston, Austin, Beaumont, Katy, Sugarland, San Antonio and The Woodlands.

We have been providing Houston homeowners and businesses with manufactured cast stone and custom stone for the last 6 years. We base our success and our well-known name on the high quality stone manufacturing services that set us apart from our competi-

Our style is

the desire
to stand out
from the rest.

tors. Our philosophy is simple...Make the best cast stone at a fair price. As our clients have experienced we go above and beyond with our work. From custom designs to standard profiles our stone will give your project a unique flair.

Hand Carved Stone & Custom Stone

We produce hand carved stone fireplaces, stone kitchen hoods, stone corbels, stone columns, stone pilasters, stone stairs, stone balustrades, stone fountains, stone fountain pools, stone pool coping, stone door surrounds, stone window surrounds, stone finials, stone moldings, exterior stone, and stone flooring. Because we fabricate all of our stone products, we are able to produce stone tile in a wide array of sizes and finishes. We are also able to carve our Architectural elements in a wide range of stones such as limestone, travertine and marble.

Houston's Trusted Custom Stone Company

Sometimes a client arrives to Houston Architectural stone with a picture or photograph and asks, "Can you make this for me?" Rest assured that the answer is almost always, "Yes."

When an element is taken from another collection, and requires major dimensional and/or aesthetic modifications, it becomes Custom. When an element is new to us and we do not have Shop Drawings in our database, it becomes Custom. In either case, a new bid including fees for Shop Drawings is required. An Approval/Sign-off process commences that must be completed prior to submitting the element for fabrication. This process carries the longest lead-time, but allows for the greatest flexibility in design.

Some of the products we carry:

- Arches
- Balustrades
- Columns
- Entrances
- Fountains
- Key Stones
- Fireplace Mantles
- Fireplace Surrounds
- Caps
- Pool Coping
